## Experience

### AMY Softech

Noida

SOFTWARE DEVELOPER

Sep 2024 – Present

- Developed scalable web apps using PHP and Laravel, writing clean, maintainable code aligned with industry best practices.
- Collaborated with front-end developers to build dynamic UI using Blade and JavaScript ensuring responsive user experiences.
- Developed REST APIs for mobile apps using PHP Laravel, implementing authentication mechanisms such as JWT and API tokens.
- Integrated Firebase Cloud Messaging (FCM), enabling real-time push notifications using topic, token, and condition strategies.
- Utilized Laravel's Eloquent ORM to design efficient data models, manage relationships, and handle complex database queries.
- Created and managed database migrations to maintain a consistent and reliable database structure in Laravel projects.
- Developed and optimized SQL queries, joins, procedures, and schedulers for fast and reliable data processing.
- Managed source code with Git and collaborated via GitHub, ensuring smooth workflows and effective team coordination.
- Proactively acquire new technologies, tools, and best practices to enhance skills and optimize application development processes.

### Global Logic Technologies

Gurugram

ASSOCIATE ANALYST

Sep 2023 – Sep 2024

- Collaborate with stakeholders to gather and comprehend project requirements.
- Assisted clients with installation, setup, and usage of software products, ensuring a smooth onboarding experience.
- Collaborated with development teams to report, track, and verify bugs or feature requests identified during support.
