

ANIKET WARADE

Angular Developer

Technology Driven Frontend/ Angular Developer with 3 years of experience in creating innovative & visually appealing web applications; adept at translating design concepts into seamless & responsive user interfaces; proven expertise in the latest frontend technologies, coupled with a strong commitment to delivering high-quality code.

Seeking a challenging role to leverage skills in leading Frontend Development, driving user experience improvements & contributing to the success of a dynamic & forward-thinking team & organization in Remote, Pune & Hybrid.

CORE COMPETENCIES

Front-End Web & Application Development

Responsive Web Design Principles

UI Design & Development

Requirement Gathering & Elicitation

Performance Analysis/ Tuning

Cross-Browser Compatibility

Performance Optimization (Webpack)

Accessibility Standards

Application Security Best Practices

Troubleshooting & Debugging

Code Review & Optimization || Code Refactoring

Unit Testing

RESTful API Integration

Defect Tracking & Validation

Project Execution & Delivery

Quality Assurance Processes

Client Engagement

Team Mentoring

PROFILE SUMMARY

- Skilled in **front-end development** with skills in crafting visually stunning, user-centric & responsive website designs; expertise lies in developing captivating UI experiences while strictly adhering to **w3c standards & ensuring 508 compliances**, fostering inclusive & accessible web experiences.
- Functioned as an **Angular Developer at Senwell Group**, tasked with designing & implementing tailored components that **optimize resource management features & elevate user engagement levels**. Successfully implemented a new user interface design that led to an **increase in user engagement**, showcasing his ability to translate user needs into effective design solutions.
- Maintain a comprehensive knowledge of **API integration methods**, facilitating smooth interactions between frontend & backend services, thereby **improving the overall functionality of applications**.
- Skilled in creating **system configuration functions** using a **component-based architecture & performing troubleshooting bugs & issue resolution** with hands-on experience in developing modularized or template-based implementation
- Proficient in **HTML5, CSS3, JavaScript, XML & Angular and various frameworks**, specialized in creating adaptive, responsive, mobile-first designs that seamlessly transition across devices; ensured adherence to **Agile & Scrum methodologies**, while driving iterative design processes that foster collaboration, innovation & rapid prototyping.
- Notable success in leading the **redesign of high-traffic websites** resulting in a significant increase in user engagement & conversion rates by implementing cutting-edge design principles & optimizing performance; successfully **reduced page load times, enhancing overall user experience**.
- Successfully spearheaded **A/B testing initiatives**, analyzed user behavior & implemented data-driven design enhancements that boosted **click-through rates and reduced bounce rates**.
- Possess skills in **embracing emerging trends & technologies**, creating intuitive interfaces, leveraging tools like **Angular, JavaScript** to develop interactive & engaging web solutions; passionate about pushing design boundaries, actively contributing to open-source projects and continuously seeking opportunities to innovate & elevate digital experiences.
- **An effective communicator with an innate capability to manage & prioritize tasks** in high pressure, possess analytical thinking and strong innovative & problem-solving capability.

WORK EXPERIENCE

Jun'24 to Oct'24: Senwell Group, Pune

As Angular Developer

Significant Highlights:

- **Designed Modular Angular Components for Resource Platforms:** Built scalable and reusable Angular components tailored to Admin, Vendor, and Client modules, enhancing maintainability and consistency across the resource management system.
- **Enabled Seamless User Workflows Through Functional Integrations:** Implemented end-to-end features including user registration, interview scheduling, and real-time data visualization—driving operational efficiency and user engagement.
- **Streamlined Development Operations & Enhanced UI/UX Quality:** Maintained and optimized version-controlled code repositories while aligning UI/UX designs with business needs, ensuring smooth development cycles and improved user experience.

SOFT SKILLS

- Analytical
- Leadership
- Communicator
- Problem-Solving
- Adaptability

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, HTML5, CSS3, XML
- **Frameworks/ Libraries:** Angular, Angular CLI, Angular Material
- **Tools:** Visual Studio Code, GitHub, Postman, Swagger
- **Technologies:** Firebase, RESTful APIs
- **Concepts:** Component-based Architecture, SDLC, UI/UX Design, Responsive Design
- **Testing & Debugging:** Unit Testing, Debugging Angular Components

EDUCATION

- **2021: PG Diploma (DAC)** from CDAC, Mumbai.
- **2019: B.E. (Mechanical Engineering)** from R. C. Patel Institute of Technology, Shirpur.
- **2015: Diploma in Mechanical Engineering** from Sanjay Education Society Polytechnic, Dhule.

PERSONAL DETAILS

Date of Birth: 31st May 1995
Languages Known: English & Hindi
Address: Dist.- Buldana- 443101

Dec’21 to Jan’24: Assimilate Technologies, Pune

As Angular Developer

Significant Highlights:

- **Engineered Scalable Web Solutions Using Angular 13:** Designed & developed robust web applications leveraging Angular 13, delivering high-performance, scalable solutions aligned with modern UI standards
- **Led UI Modernization with Reusable Component Libraries:** Spearheaded front-end enhancements by crafting reusable and modular UI components, significantly reducing development time and ensuring consistency across modules.
- **Drove Full SDLC Collaboration Across Cross-Functional Teams:** Worked closely with stakeholders, designers, and backend developers through the entire SDLC—from gathering requirements to successful deployment—ensuring alignment with business goals.
- **Integrated APIs & Delivered Responsive Cross-Device Interfaces:** Implemented seamless REST API integrations and mobile-friendly, responsive layouts to enhance user experience across devices and platforms.

May’21 to Dec’21: Unisky Technologies Pvt. Ltd., Thane

As Frontend Developer

Significant Highlights:

- **Crafted Dynamic and Responsive UI Components:** Developed highly interactive and responsive UI components using Angular, enhancing the user experience for agencies, companies, and vendors across various platforms.
- **Streamlined Data Management with Custom Forms & Interfaces:** Engineered robust forms and user interfaces for seamless insertion and updating of vendor, device, and location data, optimizing backend interaction and data accuracy.
- **Real-Time Data Integration for Enhanced Reporting:** Integrated real-time API endpoints, enabling live updates of device statuses, events, and images—empowering stakeholders with actionable insights at their fingertips.
- **Leveraged Angular Material & Bootstrap for Modern UI Design:** Utilized Angular Material and Bootstrap to implement sleek, responsive layouts, ensuring a modern, user-friendly interface adaptable to multiple devices.
- **Maximized Component Reusability & Application Performance:** Optimized the architecture of the application by focusing on component reusability and performance improvements, boosting efficiency and maintaining scalability across the platform.

PROJECTS MANAGED

ATDMS (Employee-HR Management System)

Jan 2022 to Jan 2024

- **Streamlined HR & Employee Workflow Automation:** Developed a comprehensive Angular-based system to automate HR processes, improving operational efficiency and reducing manual interventions across employee workflows.
- **Optimized Data Management and System Performance:** Enhanced the backend data architecture and system performance, ensuring fast and reliable access to employee records, payroll, and other HR functionalities.

LMS (Learning Management System)

Nov 2022 to Jan 2024

- **Full-Cycle Learning Management Platform Development:** Created an Angular-based platform catering to both administrators and students, providing an intuitive and user-centric interface for all learning management functions.
- **Integrated Key Educational Modules for Seamless Learning Experience:** Implemented features such as course creation, progress tracking, and examinations, ensuring that both students and administrators could efficiently navigate and manage the educational content.

Staff Augmentation Portal

Jun 2024 to Oct 2024

- **Developed Resource Allocation System with Multi-Role Capabilities:** Built a dynamic resource allocation portal with multi-role access, enabling teams to manage and assign staff efficiently based on their skillsets and availability.
- **Ensured Secure Backend Services & Access Control:** Integrated backend services for seamless data flow and implemented secure access control mechanisms, ensuring the confidentiality and integrity of user data.
