DHEERAJ PRAJAPATI

React Frontend Developer

+(91) 7378891335 | dheerajprajapati0009@gmail.com | Vasai, Mumbai - 401202

PROFESSIONAL SUMMARY

Dynamic React Native Developer with hands-on experience in building and maintaining cross-platform mobile applications from concept to deployment. Known for delivering clean, efficient code and collaborating effectively with UI/UX designers to create responsive and visually polished interfaces. Skilled in optimizing app performance through thoughtful code architecture and refactoring. Proficient in React Native, JavaScript/TypeScript, Redux, and integrating RESTful APIs. Passionate about crafting intuitive user experiences and solving complex technical challenges with a balanced, analytical approach.

SKILLS HIGHLIGHTS

- React Native / ReactJS
- JavaScript/TypeScript
- Redux/Context API
- React Navigation
- Xcode
- Android Studio

- Firebase
- APIs Integration
- Version Control (Git/GitHub)
- Debugging Tools (Flipper, React Native Debugger)
- Mobile App Deployment (App Store & Google Play)
- Payment Gateway Integration

PROFESSIONAL EXPERIENCE

React Native Developer – 18 June 2024 to Present
Webvision Softech Pvt. Ltd, Vasai

- Designed, developed, and maintained scalable cross-platform mobile applications using **React Native** and **TypeScript/JavaScript**, ensuring high performance on both Android and iOS devices.
- Integrated and managed backend services using **Firebase** for real-time data synchronization, authentication, and cloud storage.
- Implemented seamless **APIs integration** to connect mobile apps with third-party services and internal systems, improving app functionality and data accuracy.
- Managed global and local state effectively using **Redux** and **Context API**, resulting in smoother user interactions and consistent app behavior.
- Built intuitive navigation flows using **React Navigation**, enhancing user experience with deep linking and stack/tab navigation patterns.
- Utilized **Xcode** and **Android Studio** for app development, debugging, and testing across platforms.
- Employed debugging tools such as **Flipper** and **React Native Debugger** to identify and resolve performance bottlenecks and bugs efficiently.
- Coordinated version control using **Git/GitHub**, ensuring codebase stability through collaborative branching and code reviews.
- Successfully handled end-to-end **mobile app deployment** processes including preparing builds, managing certificates, and submitting apps to **App Store and Google Play** stores.
- Integrated secure and user-friendly **payment gateways** within mobile applications, enabling smooth transaction flows.
- Actively participated in Agile ceremonies and worked closely with UI/UX designers, product managers, and backend developers to deliver user-centric features on schedule.

ACADEMIC PROJECT

Project Name: E-Tutorial
Tools & Technologies: React, Firebase
Description:
E-Tutorial is a learning platform designed to connect two types of users: content creators who post educational material, and learners who read and engage with the posts. I developed key interactive features such as liking, following, commenting, and saving posts to enhance user engagement.
The application consists of five main modules: Home, Post, Dashboard, Profile, and Login, providing a smooth and organized user experience. The goal of E-Tutorial is to present language concepts in a simple and easy-to-understand way, making learning accessible to users of all levels.

ACADEMIC BACKGROUND

- **Bachelor of Science, Information Technology**   **7.86 / 10**
  University of Mumbai   2024

- **Higher Secondary School**   **80.40%**
  Maharashtra State Board   2021

- **Secondary School Certificate**   **66.67%**
  Maharashtra State Board   2019

ACHIVEMENTS

- Created and published custom React Native packages on npm to support modular and reusable components in mobile development.
