Passionate Frontend Developer with 2.9 years of experience in building dynamic, user-friendly interfaces using React and Next.js. Integrated 400+ REST APIs and delivered 7 enterprise projects, ensuring seamless data handling and high-quality solutions in complex environments.

Experience:

Facts Online Pvt. Ltd.

Front End Developer

August 2023 – Present

Thane, Maharashtra.

- Developed a **VI Network Status System** from scratch, integrating authentication, live network tracking, engineer assignments, and admin/user dashboards with **WebSocket notifications** for real-time updates and a **ticket-raising system**.
- Built a **dynamic dashboard** with **13 role-based views**, supporting users from field engineers to senior leadership, as part of an **SSO-integrated application**.
- Migrated a **non-performant legacy website** to **Next.js**, achieving **improved SEO**, **faster page loads**, and **optimized chunk loading**, resulting in better user experience and **business growth**.

Tickle Right Eduventures Pvt. Ltd.

Junior Software Developer

February 2022 – February 2023

Mumbai, Maharashtra.

- Developed **16 dynamic CRUD pages** with pagination, ensuring **real-time backend synchronization** for smooth user interaction and **efficient data management**.
- Engineered a **config-driven form builder** with dynamic validations, customizable dropdowns, flexible field sequencing, and dynamic field types, enabling seamless updates without frontend changes, paired with an intuitive multi-step UI.
- Integrated **300+ REST APIs**, demonstrating expertise in **API integration** and proficiency in **handling complex data flows** to enhance application performance and scalability.

Projects:

Employee Management System

[Github Code](#)

[Go to website](#)

Tools Used: - React, Vite, Tailwind CSS, React Router DOM, AG Grid, React Toastify, ESLint

- A role-based task management system with separate dashboards for Admin and Employees.
- Admins can assign and track tasks; employees can view personalized task summaries, all styled with Tailwind and persisted via local Storage.

Technical Skills:

Frontend Tools:

HTML, CSS, JavaScript, React JS, Next JS, Angular JS, jQuery

Styling Tools:

Tailwind CSS, Material UI, Styled Components, Shadcn, Bootstrap

API Tools:

Axios, Ajax, React Query, React Router Data Loaders

Other Tools:

Redux, Redux Toolkit, React Router, React Hook Form, Yup, React Dropzone, React Select, React Date Picker, Chart JS, AG Grid, Tanstack Table, React Beautiful D&D, NPM, Git, GitHub, Gitlab

Achievements:

- Lead a 3-member frontend team to build a new website from scratch using React and Next.js, overseeing the entire development lifecycle and delivering a scalable, user-centric solution within project deadlines.

Education:

Keraleeya Samajam's Model College (Autonomous) (Mumbai University)

Master of Science - Information Technology (MSc IT)

July 2019 - October 2021

Dombivali, Thane.
