SUMMARY

Passionate Full Stack Developer with a strong foundation in building scalable web and mobile applications using modern technologies such as Ionic, Angular, and .NET. Demonstrated success in enhancing user retention and optimizing application performance. Committed to contributing technical expertise and innovative problem-solving skills to develop impactful digital solutions within collaborative, growth-focused environments.

EXPERIENCE

Full Stack Software Developer

Systemics Solutions | Navi Mumbai, India | 08/2023 – present

As a Full Stack Developer, I contributed to both frontend and backend development for web and mobile applications. I was responsible for building features, resolving bugs, and supporting the development lifecycle within a collaborative team environment. This role provided hands-on experience with modern technologies and development practices, strengthening my foundation in full stack development.

- Developed responsive web and mobile user interfaces using .Net, Angular and Ionic.
- Built and maintained backend services with .NET, ensuring robust application performance.
- Implemented real-time communication features using SignalR.
- Contributed to the development of auction-based systems with integrated e-commerce functionalities.

Web Development Intern

Let'sGrowMore - Mumbai, India | 08/2021 – 09/2021

- Gained hands-on experience with core web technologies, including React.js, HTML, CSS, JavaScript, PHP, and MySQL.
- Developed individual projects utilizing each technology to strengthen both frontend and backend development skills.
- Created responsive user interfaces with React.js and HTML/CSS, implementing interactive functionalities using JavaScript.
- Built dynamic web pages with PHP and MySQL, incorporating form handling and CRUD operations.
- Enhanced understanding of full stack development and web application workflows through real-world project experience.

PROJECTS

English Improvement App | React Native App | Aug 2022 – Feb 2023

- Developed a cross-platform mobile app to enhance English language skills, featuring pronunciation guides, grammar and vocabulary lessons, and interactive exercises.
- Implemented personalized learning paths, study reminders, and real-time feedback using React Native (CLI), React Redux, and Redux Toolkit.
- Integrated Google Firebase for backend services, including user authentication and real-time database management.
- Utilized AsyncStorage for local data persistence, enabling offline access to lessons and user progress.

Technologies: React Native (CLI), Redux, Redux Toolkit, Firebase, AsyncStorage.

Employee Management System

Developed a .NET Core web application with RESTful APIs using Entity Framework Core to manage employee records, departments, and roles.

SKILLS

Languages: Java, C#, JavaScript, TypeScript, SQL, C/C++, PHP, HTML, CSS

Frameworks & Libraries: .NET Core, .NET MVC, Entity Framework, Node.js, React.js, React Native, Redux, Redux Toolkit, Angular, Ionic

Tools & Platforms: Git, Docker, Microsoft Azure, SQL Server, Capacitor, Expo, Office Add-ins

Development Practices: Object-Oriented Programming (OOP), Microservices Architecture, Agile Methodology.

EDUCATION

Bachelor's Degree, Information Technology | Mumbai university | 20220 - 2023

Grade: 9.7

Higher secondary school certificate

Mother Mary's Junior College Arts Science and Commerce | 2018 - 2020

Grade: 76.80
