SKILLS

FRONTEND

- JavaScript
- ReactJs, Redux, Redux-Thunk, React-Session Management, Redux-Persisit
- Html5, CSS3, SCSS, Bootstrap
- TelwindCSS, Material-UI

Backend

- Node JS, Express JS
- SQL

DEVOPS

- Docker
- Postman
- Git
- Bitbucket
- Jira

OS & CODING TOOLS

- VS Code
- Windows

BI TOOLS

- Power BI
- QuickSight

CERTIFICATIONS

- [Frontend Development Libraries](#)
- [The Complete Web Development](#)

OBJECTIVE

- Highly Motivated Full Stack Developer. Seeking a challenging position to learn new development skills and to utilize my development skills such as ReactJs, Redux, Redux-thunk, Redux-Persist, JavaScript, CSS3, SCSS, Redux-Thunk, React-Session Management, HTML5, GitHub, Telwind CSS, Material-UI, Node Js, Bootstrap for designing user-friendly websites and applications. Eager to learn and leverage my technical skills, creativity, and passion for problem-solving.

PERSONAL EXPERIENCE

Full Stack React Developer

Jul '24 - Present

Int Tech Pvt. Ltd. (Adwik Solution) | I-Think Lodha, Dombivli, Mumbai, MH

- Developed and maintained secure web applications that handle encrypted request and response data. Built robust front-end components using React, Redux, Redux-Thunk, Redux-Persist, integrating Redux for state management and Redux Thunk for asynchronous actions Redux-Persist for Persist and rehydrate a store.
- Designed and implemented responsive UIs with Material-UI and Tailwind CSS. Managed user sessions and role-based access control ensuring that different user roles received tailored UI functionalities. Querying data using SQL, REST Full API calling using Axios and Fetch.
- Worked on all Phases of software Cycle including Client Communication, Business Requirements, Design, Development, Bug Fix, Deployment using IIS Server.
- Developed Authentication, Authorization, Rest API services using Postman, Axios, JWT (JSON Web Token) .
- Managed Team task delivery and version control using GitHub. Integrated existing software into upgraded, modified systems for higher performance.

React.Js Developer

Jul '22 - Jul '24

Sankey Business Solutions Pvt. Ltd. | Wagle Industrial Estate, Thane, Mumbai, MH

- Worked in the Platform Engineering Team as a React Developer in the development of Field Service Management Application for International clients. Implemented using ReactJs, JavaScript, Redux, Node.Js, Express.Js, SQL. Designed GUI for mobile and web based applications based on the JSON component of React.
- Developed workflows/algorithms for State events, Model events, Querying data using SQL, REST Full API calling using Axios and Fetch.

EDUCATION

B.R. Harne College of Engineering

BE(Electronics & Telecommunication)
2015 – 2019
6.80 CGPA

K.R Kotkar Junior College

HSC (Science)
2012 – 2014
59.08 %

R.T.P High School & JR. College

SSC
2003 – 2012
77.80 %

LANGUAGES

English (Professional)

Hindi (Native)

Marathi (Native)

- Worked on all Phases of software Cycle including **Client Communication**, Business Requirements, **Design, Development, Bug Fix, Deployment** using **Docker**.
- Developed **Authentication, Authorization, Rest API services** using **Postman, Axios, JWT (JSON Web Token)** .
- Managed Team task delivery and version control using **GitHub**. Integrated existing software into upgraded, modified systems for higher performance.

Jr. Software Developer (Internship)

Jan '22 – Jul '22

Silicon Interface Pvt. Ltd. | Vashi, Navi Mumbai, MH

- Developed, and modified custom components of existing websites using **HTML, CSS, Bootstrap, and Javascript**.
- Wrote unit tests to verify the functionality of user interfaces, back-end processing, connectivity using **SQL**.
- Maintenance of existing products, technical documentation and workflows.

Jr. Design Engineer

Aug'19 – Apr'21

Zephyr Toy Maker Pvt.Ltd. | Ghansoli, Navi Mumbai, MH

- **Arduino PCB Design and Modification** in existing Design using **Eagle software**.
- Arduino controller programming for automation of toys using **C programming**.
- **Optimization** of existing components to reduce its cost and improve its **functionality and productivity**.
- Participated in the **planning and development** of new products.

CURRENT PROJECT

Pe2Way Application

- Developed a payin/payout application with encrypted request and response handling.
- Implemented role-based UI access ensuring personalized views for different user roles. Utilized React and Redux architecture to manage application state efficiently.

Apix Application

- Engineered a robust financial transaction platform with security and scalability.
- Integrated session management libraries to enhance user authentication and maintain session integrity.
- Leveraged Material-UI and Tailwind CSS for rapid and consistent UI development.
