Profile

Results-driven **JavaScript** developer with **2 years** and **1 month** of hands-on experience specializing in React.js and Next.js frameworks. Adept at building responsive and high-performance web applications with a focus on delivering seamless user experiences. Proficient in modern frontend technologies including **React**, **Redux**, **RTK Query**, **TypeScript**, and component-based architecture. Committed to writing clean, maintainable code and contributing to innovative, user-centric projects that drive business value.

Professional Experience

2024/12 – present
Mumbai, India

Front End Developer
WDI

- Developed and maintained responsive, scalable **e-commerce** and **TravelTech / OTA** web applications using **React.js**, **Next.js**, and **TypeScript**, ensuring seamless and intuitive user experiences across devices.
- Implemented **state management** using **Redux Toolkit Query (RTK Query)**, and integrated RESTful APIs for efficient data fetching and synchronization in dynamic e-commerce platforms.
- Utilized **React Hook Form** to build user-friendly, validated, and performant forms across multiple modules including checkout, booking, and admin interfaces.
- Designed and built **admin panels** using React.js and TypeScript to manage content, user data, booking information, and platform operations effectively.
- Collaborated with cross-functional teams, including designers, back-end developers, and QA, to deliver high-quality, maintainable code following modern best practices.
- Served as **Project Delivery Head**, managing timelines, resource planning, client communication, and ensuring successful delivery of all project milestones.
- Leveraged **Next.js** capabilities (SSR and Static Generation) to optimize website **performance** and improve **SEO**, resulting in faster load times and better visibility.
- Actively contributed to the **entire software development lifecycle**, from requirements gathering and system design to deployment, testing, and post-launch support.

2023/04 – 2024/11
Ahmedabad, India

React Front End Developer
Creative Infoway

- Developed a responsive website for a homegrown brand, ensuring cross-device compatibility and a polished user interface.
- Built an intuitive admin dashboard allowing content management features like uploading images, updating descriptions, posting offers, and editing slogans.
- Integrated user management to help the brand monitor user interest and engagement.
- Designed and implemented an analytics dashboard to visualize user behavior and highlight key engagement metrics.
- Ensured all admin features were user-friendly, enabling efficient updates and content management.
- Collaborated on a dynamic real estate platform built with React, enabling users to search for properties by location or name.
- Delivered a responsive, cross-platform design optimized for both desktop and mobile web views.
- Built web applications using modern JavaScript frameworks such as **React.js** and **Next.js**, with a focus on clean UI and performance.

- Used **Redux** and **RTK Query** for robust state management and efficient data handling.
- Integrated APIs using **Axios** and **Fetch**, managing asynchronous operations smoothly within React components.
- Strong grasp of React fundamentals including JSX, functional components, hooks, props, and state.
- Experienced with **Git** for version control, managing branches, and collaborating in team environments

Projects

Employee Dictionary | React.js ⬈

"I developed an 'Employee Dictionary' project using React JS, Redux, and Firebase, which features user authentication through Google signup and logout. The application allows users to register by uploading images of their Aadhar and PAN cards, and it includes a robust interface for managing employee data with detailed viewing options."

- Developed user authentication with Google signup and logout.
- Designed a registration form allowing users to upload images of Aadhar and PAN cards.
- Implemented CRUD operations for creating, reading, updating, and deleting employee records.
- Created a view customer page to access detailed employee information via a 'See Details' button.
- Added pagination for easier navigation through employee records.
- Ensured responsive design for user-friendly access across various devices.
- Tech Stack: React JS, Redux, Firebase.

Education

2022 – 2024 Ahmedabad, India	**MCA** *L.J. University* ⬈	
		SPI- **6.77**
2018 – 2021 Rajkot, India	**BCA** *Harivandana College* ⬈	
		7.17/10 CGPA
