PROFESSIONAL SUMMARY

Frontend Developer with 4+ years of experience in developing responsive, scalable, and high-performance web applications using **React.js**, **Redux**, **JavaScript**, **HTML5**, and **CSS3**. Skilled in creating custom visual components and integrating them into platforms like Power BI. Proven ability to design maintainable frontend architectures, optimize user experience, and collaborate in agile environments. Strong problem-solving mindset with a passion for building intuitive, user-friendly interfaces. Actively seeking opportunities to contribute to innovative, fast-paced development teams.

SKILLS

HTML5   CSS3   JavaScript (ES6+)   React.js   Bootstrap   Responsive Web Design   Redux   Git

GitHub   Billboard.js   Liferay   SPA   REST   ES6

EXPERIENCE

SOFTWARE DEVELOPER,   Pune

Altimetrik India Private Limited, November 2023–May 2025

- Developed and maintain scalable front-end components using React.js.
- Designed and developed a customizable table visual for Power BI using **React.js** and **D3.js**, enhancing data visualization and user interaction capabilities
- Implemented advanced features such as **column sorting**, **dynamic pagination**, and **conditional formatting** based on data thresholds.
- Optimized rendering performance to support **large datasets** with responsive and smooth user interactions.
- Enhanced overall **dashboard usability**, reduced loading times, and improved **stakeholder engagement** with interactive reporting.
- Created and integrated a Custom Multi-Slicer Visual in Power BI, improving dashboard flexibility, performance, and interactivity.
- Created and integrated a **Custom Multi-Slicer Visual** in Power BI using **Reactjs**, enhancing the capability to apply multiple filters across complex dashboards.
- Implemented support for **multi-select filtering**, **cross-filtering**, and **dynamic interaction**, allowing users to slice data across different categories and hierarchies with ease.
- Highlight your accomplishments, using numbers if possible.

SOFTWARE DEVELOPER,   Delhi

Erasmith Technologies Pvt Ltd., September 2021–November 2023

- Designed and implemented the Login page, Dashboard, and Sidebar using **ReactJS**, improving UI responsiveness and ensuring seamless navigation across components.
- Applied reusable components and responsive design principles to enhance **user experience**, maintainability, and cross-device compatibility.
- Developed an Import feature for Excel uploads and dynamic report generation
- Merged two reports into a unified page and built draggable, resizable charts with Billboard.js to enhance interactivity and navigation
- Collaborate with UI/UX designers to implement beautiful interfaces
- Integrated RESTful APIs and work closely with backend teams to ensure seamless data flow.
- Optimize application performance with efficient code and lazy loading techniques.
- Utilized version control systems like Git and GitHub for efficient code collaboration, branching strategies, and maintaining code integrity in team-based development environments.
- Troubleshoot,debug and upgrade existing applications.
- Optimized code for better performance, scalability, reliability, security and maintainability.

INTERN, Bangalore

Liferay India Private Limited, January 2021–August 2021

- Developed, debugged, and troubleshooted the Contact Us, Feedback, and Dashboard modules.

EDUCATION

BE IN COMPUTER ENGINEERING

Government College of Engineering and Research, July 2020

DIPLOMA IN COMPUTER ENGINEERING

Soniya Gandhi Polytechnic, June 2017

SSC

Shrimant Rajmata Vijayaraje Shinde kanya Vidyalaya, June 2014
