Career Objective

Motivated and detail-oriented Frontend Developer seeking an opportunity to contribute technical skills and gain hands-on experience in a challenging and growth-oriented environment. I aim to work with an organization that provides an encouraging space for personal and professional development.

Professional Summary

- Frontend Developer with over 3 years of experience in building dynamic and responsive web applications using React.js, Angular, JavaScript, and Bootstrap.

- Skilled in understanding project requirements, collaborating with stakeholders, and independently handling frontend development tasks.

- Strong understanding of UI/UX principles and cross-browser compatibility.

Technical Skills

- Frontend Frameworks: React.js, Angular – 11+
- Programming Languages: JavaScript, Node.js
- Web Technologies: HTML5, CSS3,Bootstrap
- Database: MongoDB, MySQL
- Tools & IDEs: Visual Studio Code, Git, Jira

Professional Experience

Techreal, Valsad – Frontend Developer (React JS)
Dec 2023 – Jan 2025

- **Project Title**: ASK-MILO
  Technology: React.js
  Project Description: Built a web application for generating AI prompts based on user-defined categories and custom inputs. Users can execute prompts, view results, and perform actions like saving, copying, translating, and exporting to PDF or Word. Implemented a subscription-based model (monthly/yearly) with support for managing multiple users under a single plan.

- **Project Title:** FAMYLL
  Technology: React.js
  Project Description: Developed a multi-portal web application for health insurance management and doctor appointment scheduling. The system includes three user roles—Plan Owner, Provider, and Member. Members can track insurance applications and appointments; Plan Owners manage insurance plans; and Providers (agents) assist users in selecting and purchasing suitable plans based on health conditions and needs.

- **Project Title:** ODB – Bank Loan App
  Technology: React.js
  Project Description: Developed a web-based loan application portal that allows users to apply for bank loans and track their application status in real-time. Included dynamic eligibility forms to assess loan qualification and integrated branch-specific details, enabling users to connect with their local branch for further assistance and loan-related queries.

Skyttus Pvt. Ltd. – Frontend Developer
Jan 2021 – Oct 2023

- **Project Title:** HR Management System
  Technology: React.js
  Project Description: Built an internal HR portal to manage employee data, daily tasks, leave tracking, and document records. Enabled employees to apply for leave and allowed HR to monitor work hours and access complete employee documentation.

- **Project Title:** Neutrinos – Bank App
  Technology: Angular
  Project Description: Worked on a no-code development platform offering drag-and-drop functionality to design and implement web applications. Contributed to building banking-related features and workflows, enabling rapid development and deployment without manual coding.

- **Project Title:** Infigrowth – SEO Tools
  Technology: React JS
  Project Description: Developed SEO tools and reporting dashboards using Google Search Console data and keyword research. Implemented filters, graph visualisations, and project management features to support SEO analysis and tracking.
