SUMMARY

Results-driven Frontend Developer with 3+ years of experience building scalable, high-performance interfaces using React.js, JavaScript (ES6+), TypeScript, and Redux/MobX. Proficient in creating pixel-perfect, responsive UIs with HTML5, CSS3, React Hooks, and Next.js, and integrating RESTful APIs. Advocate of TDD with Jest and React Testing Library, focused on clean, accessible, and cross-browser compatible code. Skilled in Git, Agile methodologies, and cross-functional collaboration. Recognized for leadership, mentoring, and driving continuous improvement in code quality and performance.

WORK EXPERIENCE

Capgemini Technology Services India Limited   *Airoli, Mumbai*
Project – Darden Restaurants

Associate Consultant   **April 2025 - Present**
- Delivered Phase-2 user stories 2 weeks ahead of schedule by leading feature development using React.js, Redux, and RESTful APIs, ensuring agile sprint continuity.
- Increased team productivity and on-boarding speed by 30% by mentoring junior developers in core front-end concepts like component life-cycle, state management with Redux/MobX, and code best practices in JavaScript.
- Improved application consistency and performance by driving adherence to UI/UX guidelines and optimizing reusable React components across multiple micro frontends (MFEs).

Senior Analyst / Software Engineer   **April 2024 - March 2025**
- Developed and delivered 45+ high-quality frontend user stories by implementing scalable React components, optimizing rendering performance, and integrating RESTful APIs, resulting in a 20% increase in release stability and improved sprint velocity.
- Resolved 100+ critical UI defects by debugging React component hierarchies, refining state management, and addressing asynchronous JavaScript issues, contributing to a 15% improvement in end-user satisfaction.
- Led code remediation efforts reducing SonarQube-reported code smells by 20% through refactoring, consistent linting practices, and enforcing ESLint/Prettier standards.

Analyst / Software Engineer   **July 2022 - March 2024**
- Boosted unit test coverage from 40% to over 80% across major components by implementing test-driven development (TDD) principles using Jest and React Testing Library, ensuring component reliability and reducing post-deployment bugs.
- Accelerated cross-functional collaboration and delivery timelines by 15% by facilitating communication between UI, QA, and backend teams, using Git for version control and code review.
- Worked on UI Bug Fixes and User Stories as well as enhanced technical skills through various courses on Udemy.

Key Achievements
- Promoted from **Analyst** to **Senior Analyst** (Mar 2024) and from **Senior Analyst** to **Associate Consultant** (Apr 2025).
- Awarded **PROJECT STAR Award** for outstanding performance (Jan 2025 – Mar 2025).
- Earned **STAR Award** for exceptional contributions (Jan 2024 – Jun 2024).
- Consistently praised by Scrum Master and UI Lead for proactive communication, meeting sprint deadlines, and delivering high-impact solutions.

EDUCATION

Bachelor of Engineering   **August 2018 - May 2022**
Atharva College of Engineering   *Malad, Mumbai*
- Earned a Bachelor of Engineering in Information Technology with CGPA of 9.46/10.

Higher Secondary Certificate   **February 2018**
R. P. Wagh Junior College   *Vasai, Mumbai*
- Completed HSC in Computer Science with percentage of 84.46.

COURSES & CERTIFICATIONS

React – The Complete Guide 2025 (incl. Next.js, Redux)   **February 2025**
Udemy – [71 hours duration]   *Remote*

The Complete JavaScript Course 2024: From Zero to Expert   **June 2024**
Udemy – [62 hours duration]   *Remote*

TECHNICAL SKILLS

- **Frontend**: React.js, Redux, MobX, JavaScript, TypeScript, Next.js, HTML, CSS, Material-UI, SASS, Bootstrap
- **Backend**: Node.js, Express.js
- **Unit Testing**: Jest, React Testing Library
- **Database**: MongoDB, SQL, MySQL, PostgreSQL
- **Tools**: Git, npm, Chrome DevTools, SonarLint, SonarQube
- **IDE**: Visual Studio Code

SOFT SKILLS

Communication skills, critical thinking, problem solving, leadership, adaptability, teamwork and time management.
