Vatsalya Apt, Flat No. 1/106 B.R. Nagar, Agasan Road Diva (E) , Thane – 400612

Experience

Fyntune Solutions (Software Developer)

May 2024 - Present

- Built **5+** complex modules, including an **employee-level lock-in system**, as part of an InsurTech platform designed for brokers managing **2,000+ employers** and **20+ lakh employees**.
- Developed and maintained **3 communication dashboards** (SMS, WhatsApp, Email) across frontend and backend, increasing client outreach efficiency by **40%**.
- Created dynamic, responsive UIs using **ReactJS**, **Tailwind CSS**, and **JavaScript**, contributing to a seamless user experience across multiple modules.
- Integrated scalable **RESTful APIs** and implemented secure **Laravel** backends, ensuring reliable data handling and high system performance.
- Built an automated **COI** (Certificate of Insurance) system with auto-email generation, and a **demo user creation** module, streamlining onboarding for **500+ employers** and reducing support queries by **25%**.
- Enhanced page load performance by implementing lazy loading and component-level code splitting in ReactJS, resulting in a **30%** reduction in initial load time across key modules.

Skills

- Frontend** - HTML, CSS, Tailwind CSS, JavaScript, ReactJS
- Backend** - PHP, Laravel
- Database** - MySQL
- Tools** - Git, Postman, MS Office

Projects

- Chat Application** - Built a real-time chat app with ReactJS, Node.js, and Socket.io featuring private rooms and message persistence.
- Game Shop Application** - Created a game store UI using ReactJS and Tailwind CSS with product browsing, cart, and responsive design.
- Tour Application** - Developed a tour booking interface in ReactJS and Tailwind CSS with filters, package listings, and real-time availability.

Education

B.Sc. Computer Science

Mulund College of Commerce (2021 - 2024)

Higher Secondary Certificate (HSC)

Ramniranjan Jhunjunwala College (2019 - 2021)

Certifications

- Front End Development (Apr 2024)** - Completed comprehensive training in ReactJS, Tailwind CSS, JavaScript, and responsive UI design.
- Full Stack Development (Dec 2023)** - Completed hands-on training in ReactJS, Laravel, MySQL, and building scalable full-stack applications.
