

D&B Supply transforms management of
2+ MILLION PRODUCTS
with Navsoft's PIM Solutions

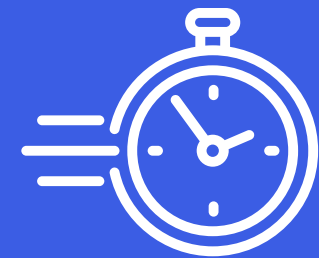

*Seamlessly integrating ERP, third-party tools, and
Magento for enhanced productivity*

[Know more](#)

D&B Supply operates a chain of retail stores serving the modern northwestern customer, including ranchers, farmers, and suburbanites who feel a connection to the land and outdoor lifestyle across the Mountain West region.

Managing over 2 million products in Magento store from multiple sources

Time-consuming process to update product records offline before importing to Magento

Need for enhanced product information management across different business units

Requirement for role-based access control for store management

Navsoft's Integrated PIM System

Navsoft delivered a comprehensive Product Information Management solution built on microservices architecture, designed to synchronize and enrich data from multiple sources while maintaining performance at scale.

Implemented **Elasticsearch** for distributed search and rapid data retrieval

Created seamless integration between **MMS ERP, CX1 enhancement tool,** and **Magento**

Deployed Cloudflare CDN to enhance **data security, performance, & reliability**

Developed **role-based access control** for efficient store management

Transformative Results

Minutes vs. Days for Updates

Updating **2+ million products** in the e-commerce platform now takes just **minutes** instead of the previous labor-intensive process.

Enhanced Store Organization

Products are **systematically organized** by business unit, allowing employees to quickly locate inventory across locations.

Streamlined Data Synchronization

Successfully established automated data flow between **D&B Supply stores, MMS ERP, CX1, and Magento.**

Improved Operational Efficiency

Automated workflow for retail shop services has dramatically **reduced manual effort** and **eliminated data entry errors.**
