

NAVSOFT

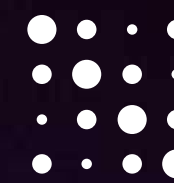

# Innovation & Automation for Better Social Education

*Navsoft's education portal leads to a 36% increase in student attendance and a 28% enhanced user experience for SahlEdu.*

NAVSOFT

# Client

SahlEdu is a leading portal that has managed to revolutionize primary and higher education in the Middle East and all over the world. Their vision was to create a common meeting platform that transcends traditional learning boundaries.

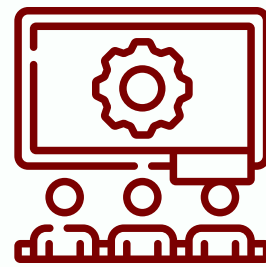

# Challenges

SahI Edu aimed to be the ultimate platform for group work and learning, covering all aspects of school education. However, they faced several critical challenges in realizing their ambitious vision for a digitally transformed educational landscape:

## Fragmented Collaboration

There was a significant need for a social app to bring schools, students, teachers, and parents onto a centralized platform.

## Lack of Centralized School Management

A centralized school management system that was easy to operate, with well-defined user roles, was necessary.

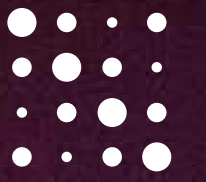

## Dispersed E-learning Resources

No repository available for storing all e-learning documents that could be accessed at any time.

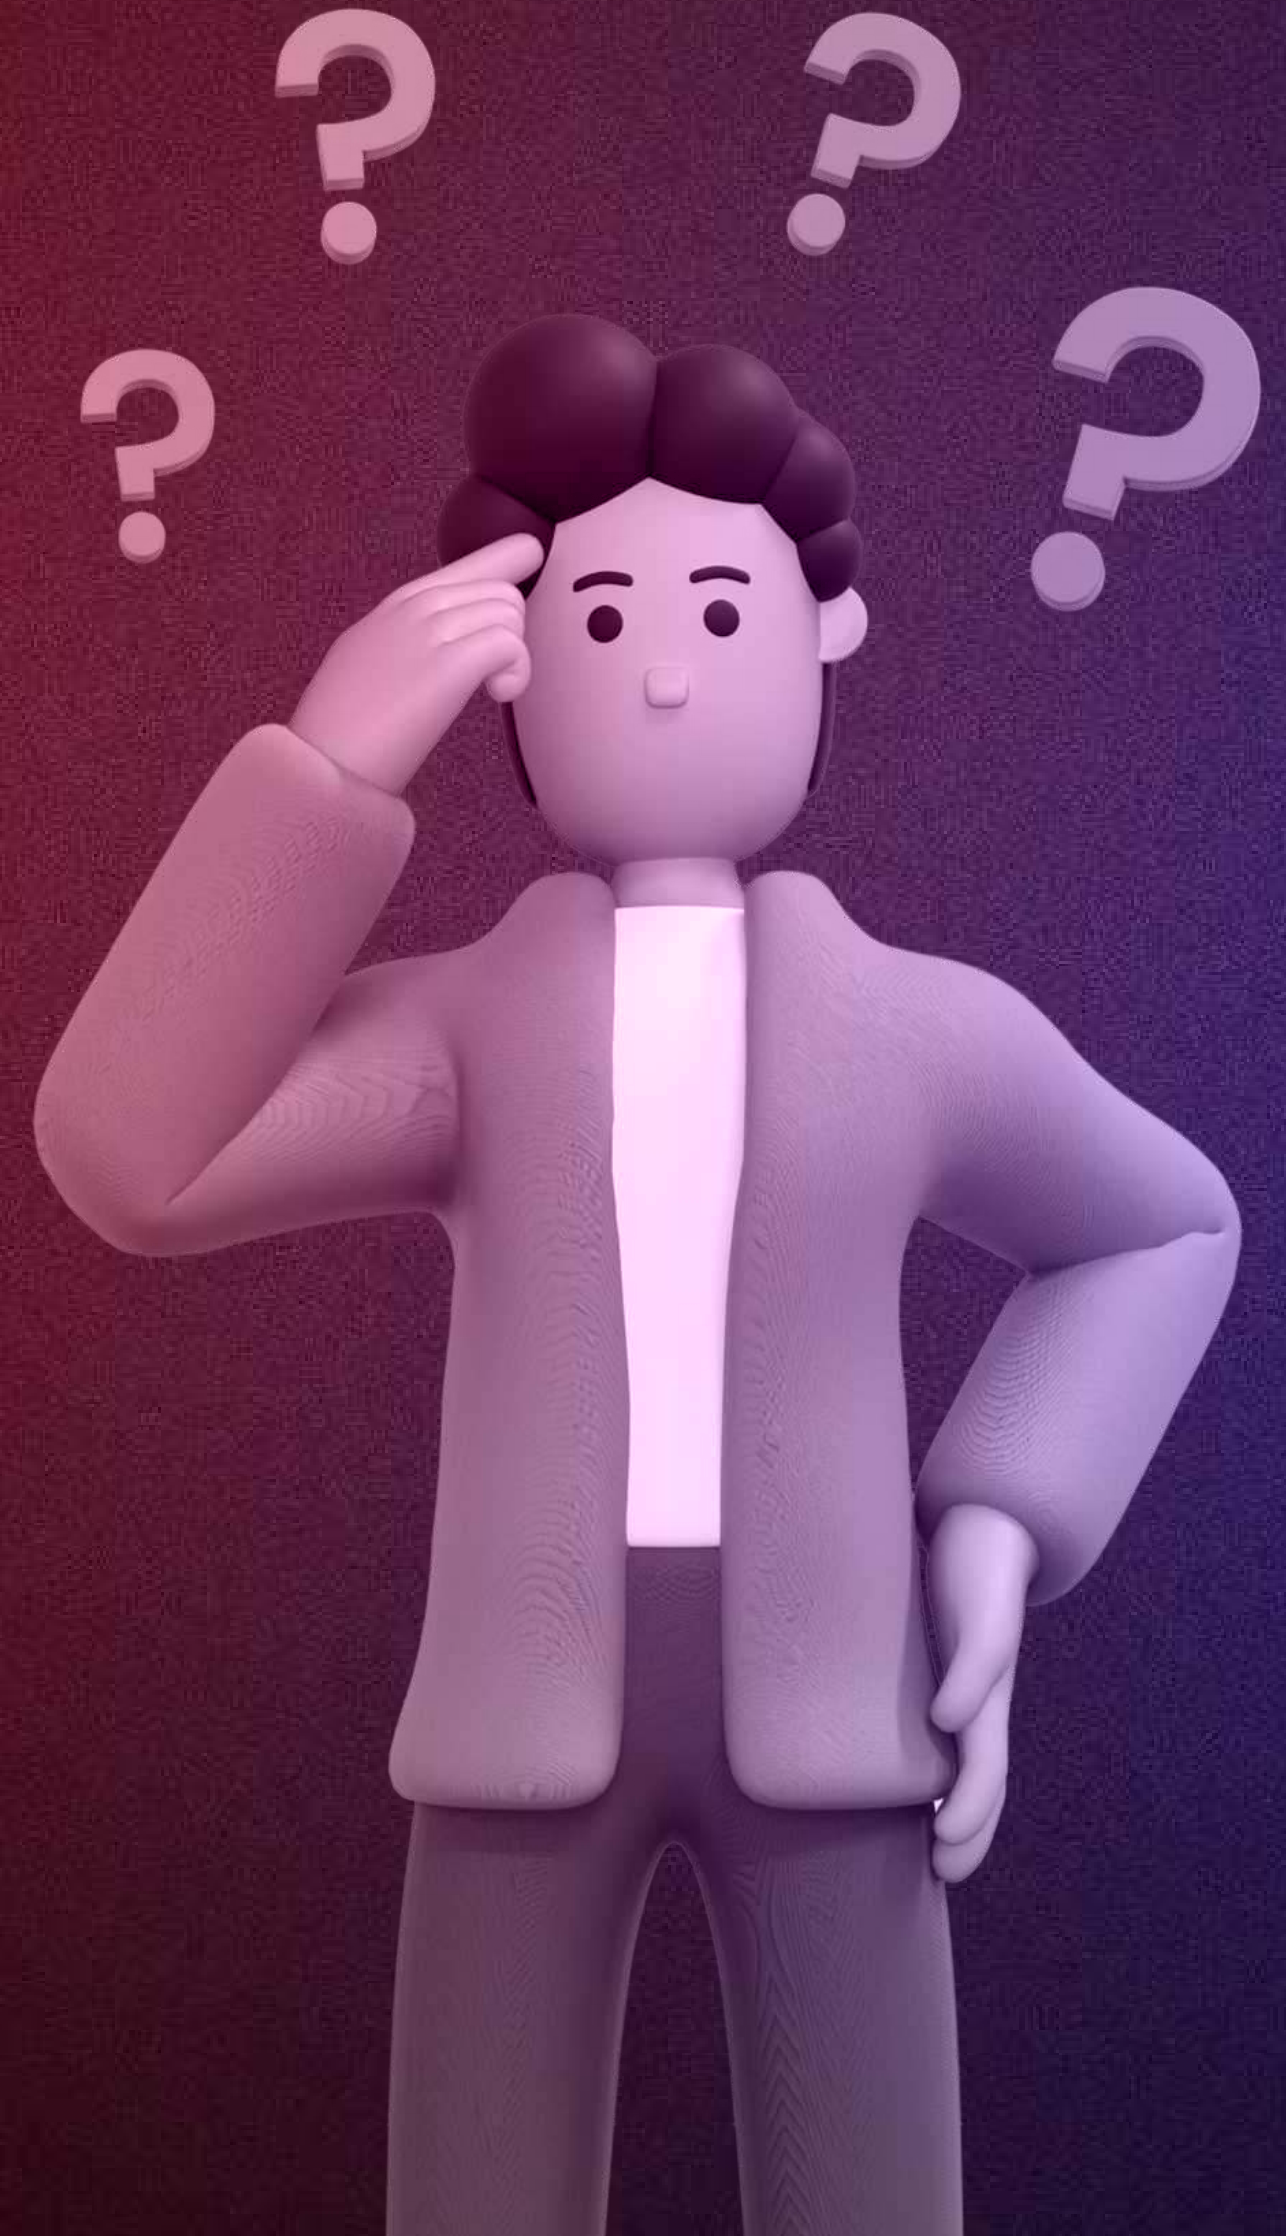

## Limited Engagement & Interaction

Traditional educational models often lacked dynamic engagement among stakeholders.

NAVSOFT

# Navsoft's Solution

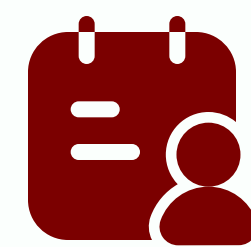

Navsoft built a comprehensive social educational app that digitized the entire learning and teaching approach:

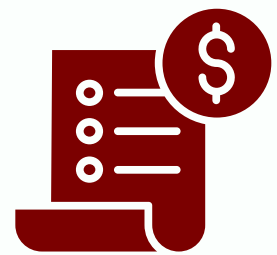

## Error-Prone Workflow

Their entire workflow, from patient registration to report generation, was manually controlled and susceptible to errors.

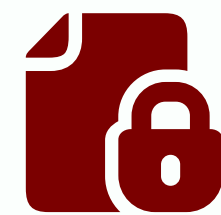

## Inefficient Appointment Scheduling

The process for booking patient appointments was inefficient, contributing to patient anxiety.

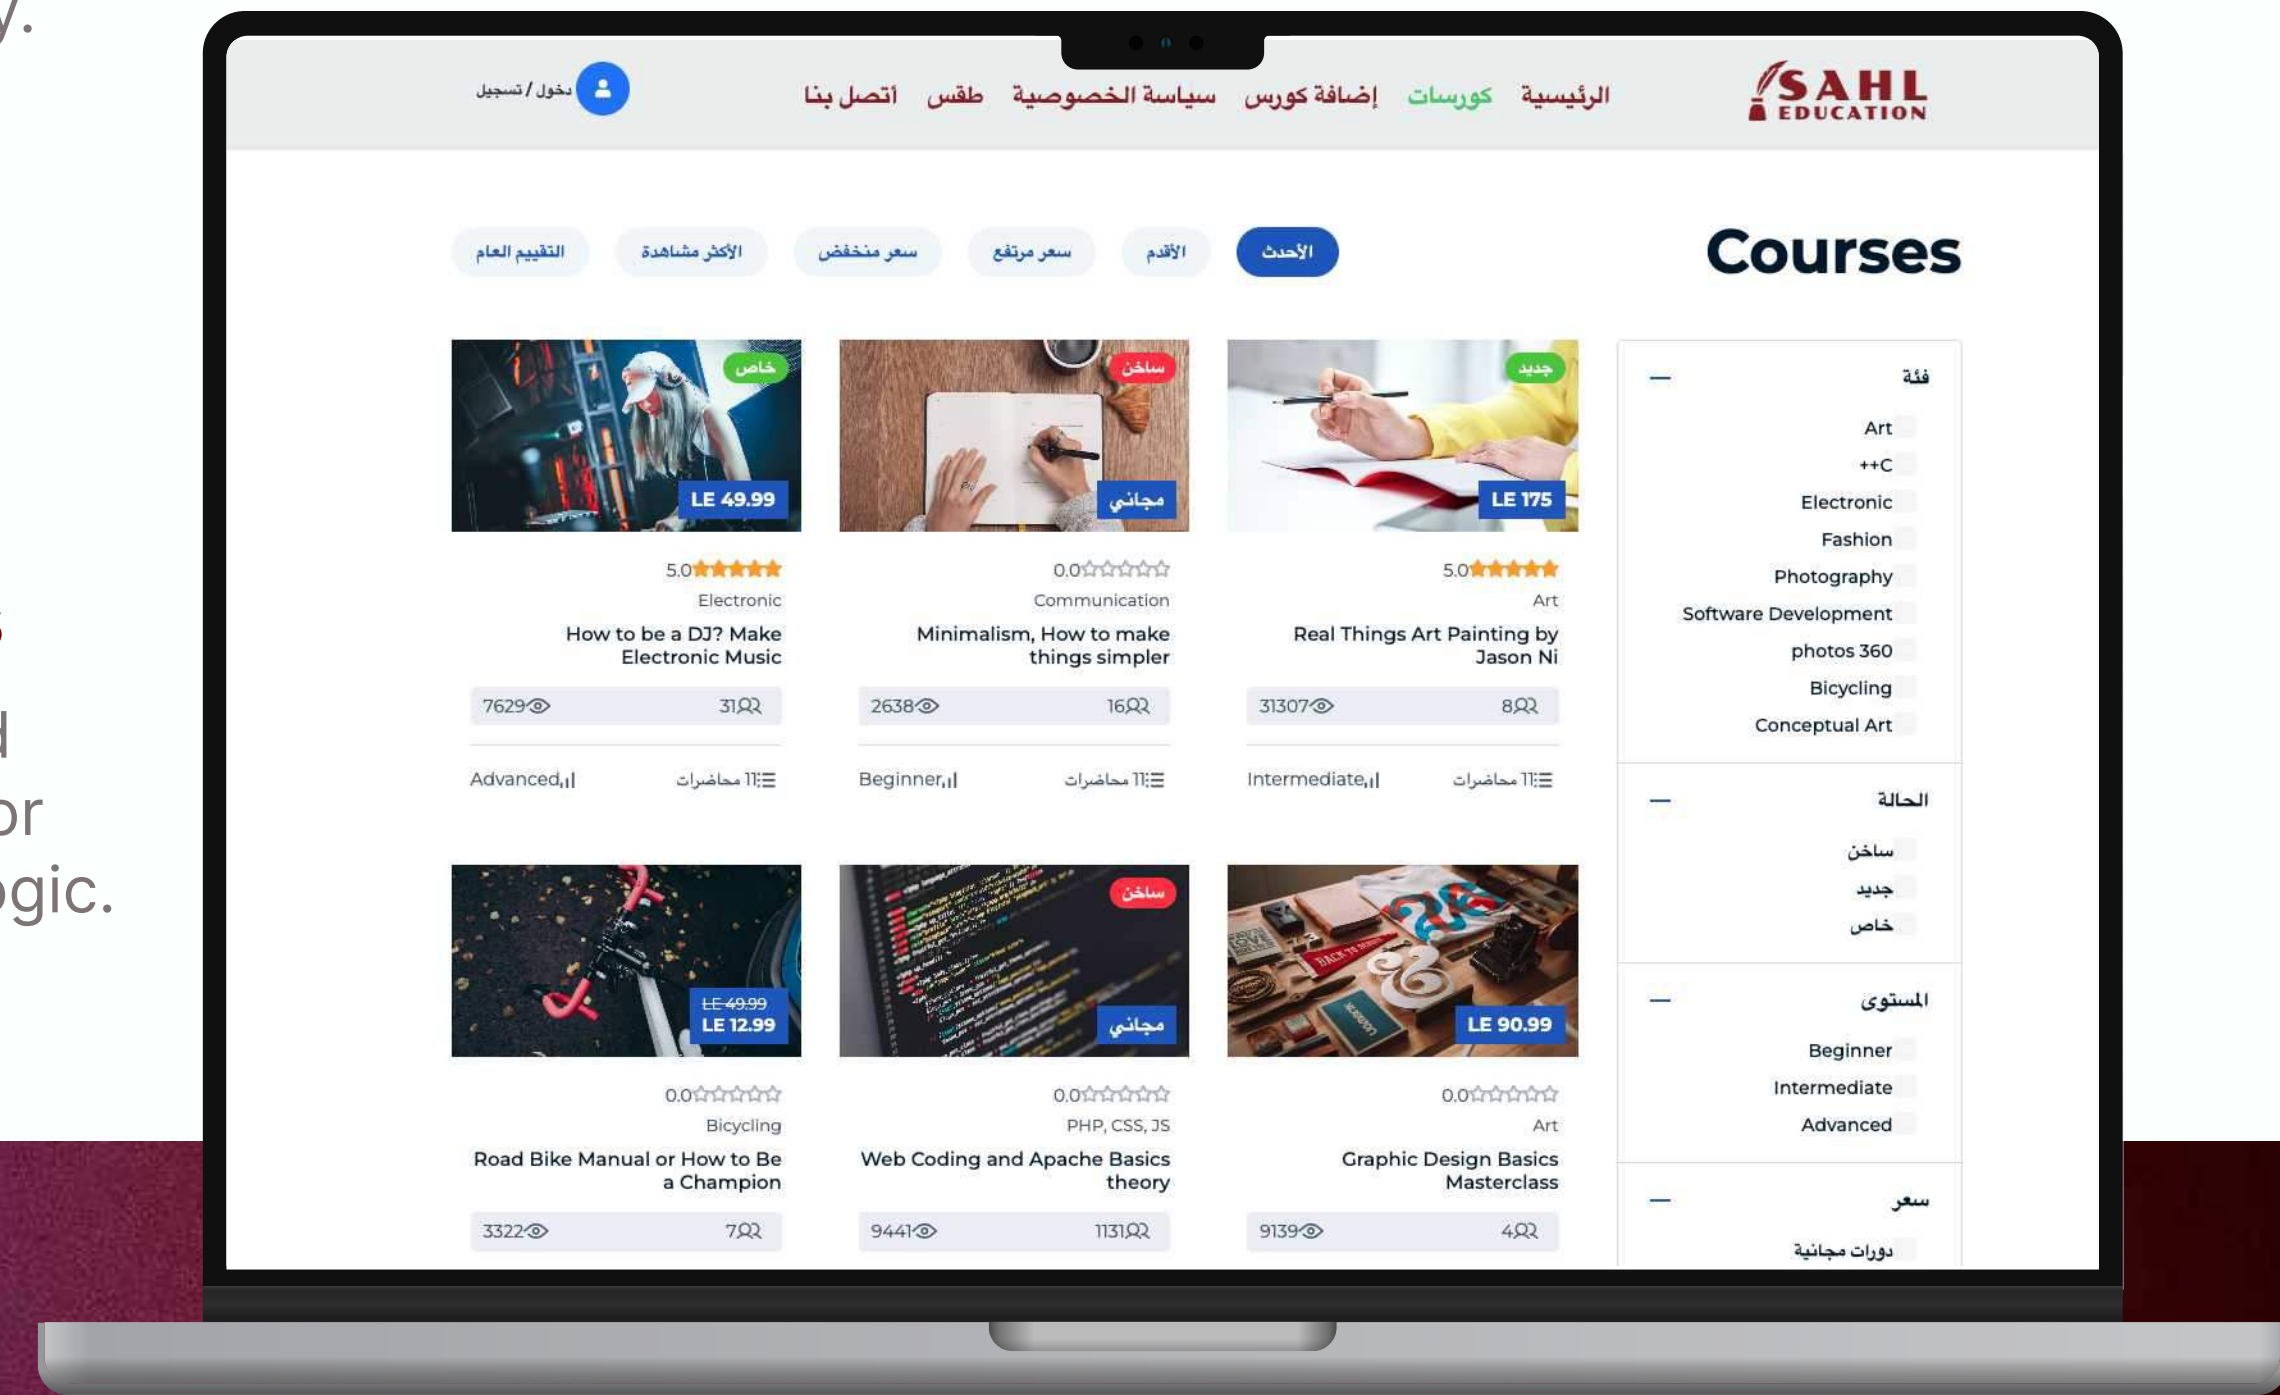

## Complex Billing & Invoicing

Generating invoices for clinical examinations and tracking payments was a manual process.

## Confidentiality Issues

No multi-level verification and approval processes present, or the ability to create custom logic.

NAVSOFT

# Key Results

Navsoft's digital transformation initiatives delivered a profound impact on SahlEdu:

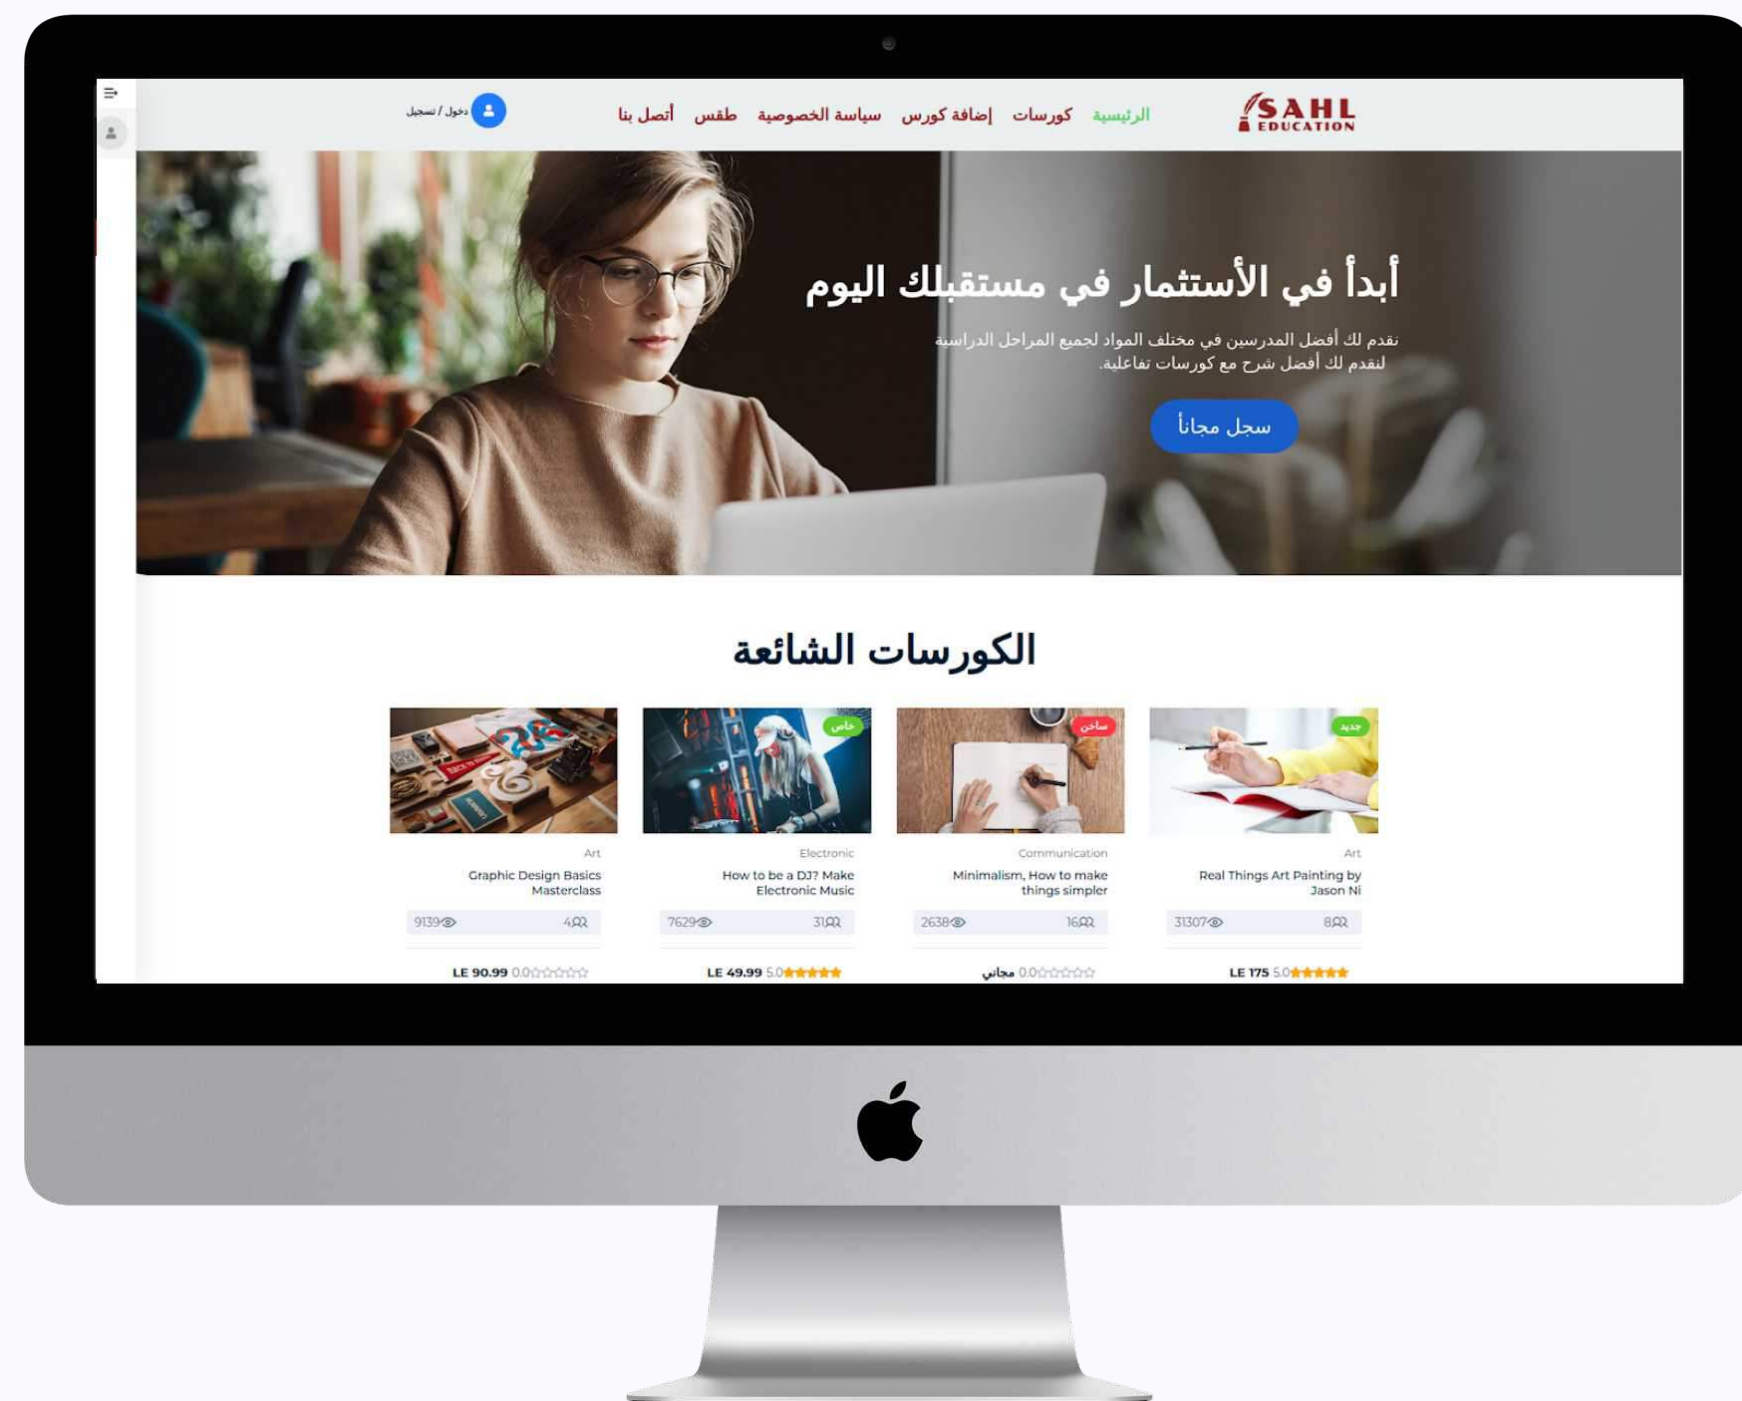

36% Increase in Student Attendance

28% Enhanced User Experience

Streamlined School Operations

Effortless Communication Between Stakeholders

Improved Data-Driven Insights
